But, remember, this is the same thing in reverse. Along your journey, you will have to face up against deadly creatures, from bats to golems to ghouls to reapers, and grow stronger with each defeat to ascend to the highest level of the tower. Attack, obviously, is very important since, if you don't have attack power, then your attacks won't deal any damage. Always install failed the mod apk. The best stat, in terms of floor clearing, is speed. I prefer to level the rogue up as fast as possible, which gives you more speed, then work on the warrior, then the wizard.
